

RFI-SWA-A.R.Y.A.

RFI-SWA-A.R.Y.A. is a custom design tilt mercury switch to work with the RFI GM2000 dialer. RFI-SWA-A.R.Y.A. is designed to work with all gate operators with an arm. Its unique design allows the GM2000 to call any pre-programmed phone number if the gate arm is stuck at **open or down position** for more than 10 minutes. The unit is completely sealed to avoid rain, moisture, dust or any other harsh conditions.
